

We Specialise In Retirement Villages & Nursing Homes

We understand the special nature of concrete and asphaltting work in and around Retirement Villages & Nursing Homes. We are aware of the ongoing costs involved in ensuring the safety and care of your residents, not only physically but also in the grounds within your Retirement Village or Nursing Homes.

Concrete Repairs

Fixing of Trip & Fall Hazards

We provide high quality repair work in pathways, wheelchair ramps & driveways. Grinding is a cost effective way of returning current paths and driveways to a level and safe area for all residents.

Asphalt Repairs

Repair & New Asphalt Work

We specialise in the construction, surfacing, resurfacing and maintenance of small to medium asphalt works such as repairs, driveways and car parks.

From repairs and maintenance of existing surfaces to new work, A1 Concretors is the only contractor you'll need for all your concrete and asphalt needs.

We are aware of the special considerations needed when working within your Retirement Village or Nursing Home, for example starting times, barricading work and giving residents access to the facility.

We are happy to provide an "Obligation Free" quote for repairs, grinding & new work.
